I did my best to keep you away.

Now I can't live without ya.

A miracle must have taken place.

The mysteries of love.

While I was secretly dying,

You saw something worth reviving.

CHORUS:

 |
(Now) Every day is a miracle, with you, with you.

 ^
 Every day is a miracle, with you, with you.

I saw your pity, and tried to hide.

Afraid that once you found me.

You'd see the shivering stray inside.

(But) you wrapped a blanket 'round me.

(I was) Running in place in a bad dream,

One that was never, meant for me.

BRIDGE:

Grounded by your touch I didn't know I needed.

Strengthened by your love is everything, every day, everything.

Good morning Star of stability.
