

Verse

Through my suffering I've learned
To feel compassion for the world
Through my hardships I have found the path to peace
Days I wish I could take back
Are redeemed repaired remapped
As the light of mercy leads me

CHORUS

And finally I found the path to peace
Rising from the ashes at my feet
Come with me on the path to peace
Follow love wherever it may lead
That's the path to peace

Verse

In my sorrow I have learned
How to bear my brother's burden
Sharing what it means to be the least of these
We will see when we believe
Angels working in the wings
There's a path to peace a season for all things

Chorus
